Case: 10004107-1
Amendment C

3

sending the ticket data from the network enabled device to the network enabled imaging device; and

forming the ticket, including the image, with the network enabled imaging device using the ticket data.

10.(previously presented) The method as recited in claim 9, wherein:
the network enabled device includes a server; and
the network enabled imaging device includes a printer.

11.(previously presented) The method as recited in claim 10, wherein:
generating the ticket data includes integrating graphics with the image.

12. (previously presented) The method as recited in claim 11, wherein:
the graphics include a watermark corresponding to identification data
associated with the ticket.

14. (canceled)

15. (canceled)

16. (canceled)

17. (currently amended) A ticket generating apparatus for use with a network,
comprising:

a network enabled device coupled to the network and arranged to send ticket data to the network, with the ticket data including data corresponding to an image of a person; and

a network enabled imaging device directly coupled to the network and arranged to receive the ticket data through the network and configured to form a ticket on media including the image.

S/N: 09/765,868
Case: 10004107-1
Amendment C

18.(currently amended) The ticket as recited in claim 17, wherein:
the first network enabled device includes a server.

19. (previously presented) The ticket generating apparatus as recited in claim 18, wherein:

the server includes a configuration to generate the ticket data using the data corresponding to the image supplied by the imaging device over the network; and

the server includes a configuration to generate the ticket data including graphics data integrated with the image.

20. (previously presented) The ticket generating apparatus as recited in claim 19, wherein:

the graphics include a watermark corresponding to identification data associated with the ticket.
